Subject: Milam county

Hello David,

Do you have this on your radar? I'm thinking it starts with the region and gets pushed to HQ? Could I get more background on this? HQ likes to promote attainment announcements. Thank you!

As early as August 13, 2020, EPA plans to propose to redesignate to "attainment/unclassifiable" the:

- <!--[if !supportLists]--><!--[endif]-->unclassifiable portions of Franklin and St. Charles Counties in Missouri;
- <!--[if !supportLists]--><!--[endif]-->entirety of Lancaster County in Nebraska;
- <!--[if !supportLists]--><!--[endif]-->entirety of Gallia County and the unclassifiable portion of Meigs County in Ohio; and
- <!--[if !supportLists]--><!--[endif]-->entirety of Milam County in Texas.

Currently available information shows that these areas are meeting the 2010 health-based 1-hour National Ambient Air Quality Standard (NAAQS) for SO₂.

Corry Schiermeyer
Associate Deputy Regional Administrator
Region 6 (Texas, New Mexico, Oklahoma, Arkansas, Louisiana)
